With hikes in Glacier and Waterton varying from half-hour strolls to full-day adventures, this guidebook is for everyone, including families. *Insiders' Guide to Glacier National Park* is the essential source for information to this outdoor paradise that offers diverse opportunities for fun and adventure. Written by a local (and true insider), this guide offers a personal and practical perspective of Glacier and its surrounding environs. Writer, editor, and avid outdoorswoman Becky Lomax offers an insider's perspective on Glacier National Park, where she once worked shredding lettuce in the kitchen so she could hike the park's nearly 300 miles of park trails during her free time. From hiking through multi-color meadows filled with wildflowers to observing the Sperry Glacier, a victim of global warming that will vanish in less than two decades, Lomax knows the best ways to enjoy the park's one million acres of wilderness. She also includes unique trip strategies for travelers with specific interests and restrictions, including a Wildlife-Watching tour and a whirlwind One Day in Glacier tour. Whether it's biking up Going-to-the-Sun Road or watching a grizzly forage in huckleberries, Moon Glacier National Park gives travelers the tools they need to create a more personal and memorable experience. This full-color guide includes vibrant photos and helpful maps. Find out who made the parks' famous red buses. Discover why so many geographical features are named for people who either never visited the parks or only stopped by once. Put your finger on the number of plant, animal, fish and insect species in the park. Learn the lore of such landmarks as Chief Mountain. Laugh out loud at crazy ideas and silly events that have taken place. Happenings, history, statistics, special visitors and animal stories - find them all in a snap in this book about the world's first international peace park. Field guide to more than 300 wildflowers conveniently arranged for easy identification. Includes vibrant color photos and descriptions. *Where the Mountains Meet the Prairies: A History of Waterton Country* reveals the human history of one of the most popular and breathtakingly beautiful national parks in western Canada. The scope of this book is grand; Graham MacDonald takes his audience back to prehistoric times in the Waterton-Glacier area and, finally, deposits his readers in the present park, after a tour covering thousands of years of history. From a discussion of the British naturalist, Charles Waterton, for whom the park was named, to explorations of

such topics as conservation and ecology, native traditions and treaties, townsite development, and the current challenges facing national parks, Graham MacDonald's study provides a broad interpretive history of this unique area. Far from just providing lovely images, *Where the Mountains Meet the Prairies* also captures the human element of this special landscape, most colourfully personified by J.G. "Kootenai" Brown, Waterton's most famous and eccentric personality. Supported by extensive photographic and cartographic material, this book is not to be missed by lovers of the unparalleled western landscape and those who would like to know more about the people and events that shaped this incredible park.
